NEGATIVE DECLARATION

This **Negative Declaration** has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

PROJECT TITLE:

Application for a General Plan Amendment, Rezone, Special Development Permit and Tentative Map filed by Deborah Ungo-McCormick.

PROJECT DESCRIPTION AND LOCATION (APN):

Application for related proposals on a 2.4-acre site (Woodfin Suites Hotel) located at 635 East El Camino Real in a C-2/PD (Highway Business/Planned Development) Zoning District. (APN: 211-08-030)

- **General Plan Amendment** to change the land use designation from Commercial General Business to Medium-Density Residential, and
- **Rezone** from C-2/PD (Highway Business/Planned Development) to R-3/PD (Medium-Density Residential/Planned Development) Zoning District, and
- **Special Development Permit** to allow the re-configuration of an 88-room hotel into 58 condominium ownership units, and
- **Tentative Map** to subdivide one lot into 58 lots and one common lot.

FINDINGS:

The Director of Community Development of the City of Sunnyvale, California, hereby determines that an environmental impact report is not required. There are sufficient environmental controls incorporated into the Zoning and Subdivision regulations as to ensure no significant detrimental effect.

The above determination is based upon the initial study conducted in this matter; information provided by the applicant in an "Application for Environmental Finding" that the use is in keeping with and not in conflict with the adopted General Plan, Zoning Ordinance and Subdivision Ordinance; that the use would be in keeping with the character of the proposed Zoning District. Site and architectural control will be exercised over the proposed development by the Planning Commission and City Council. No endangered species are known to depend on this site for habitat.

This **Negative Declaration** may be protested in writing by any person prior to **5:00 p.m. on Tuesday, July 6, 2004**. Such protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a Negative Declaration will be considered by the adopting authority, whose action on the protest may be appealed.

DETERMINATION: (To be completed by the Lead Agency)

On the basis of this initial evaluation:

I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared. ☒

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared. ☐

I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required. ☐

I find that the proposed project MAY have a "potential significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect (1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and (2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed. ☐

I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required. ☐

EVALUATION OF ENVIRONMENTAL IMPACTS

- 1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2) All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 3) Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 4) "Negative Declaration: Potentially Significant Unless Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section 17, "Earlier Analysis," may be cross-referenced).
- 5) Earlier analysis may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063 (c) (3) (d). In this case, a brief discussion should identify the following:
 - a. Earlier Analysis Used. Identify and state where they are available for review.
 - b. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
 - c. Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project
- 6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g. general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- 7) Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.
- 8) This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9) The analysis of each issue should identify: (a) the significance criteria or threshold used to evaluate each question; and (b) the mitigation measure identified, if any, to reduce the impact to less than significance.

- | | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|-------------------------------------|
| a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | 2, 10, 26, 42, 59, 60, 61, 111, 112 |
| b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of the past projects, the effects of other current projects, and the effects of probable future projects)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | 1, 2, 111, 112 |
| c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | 111, 112 |

XVII. HYDROLOGY AND WATER QUALITY. Would the project:					
a) Violate any water quality standards or waste discharge requirements?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X	2, 24, 25, 111, 112
b) Substantially degrade groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X	2, 24, 25, 111, 112
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X	2, 24, 25, 111, 112
d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or surface runoff in a manner which would result in flooding on- or off site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X	2, 24, 25, 111, 112
e) Create or contribute runoff which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X	2, 24, 25, 111, 112
f) Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X	2, 12, 19, 24, 111, 112

i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X	2, 19, 24, 25, 111, 112

DISCUSSION OF IMPACTS THAT ARE LESS THAN SIGNIFICANT

V LAND USE PLANNING (b) The proposed Rezoning and General Plan Amendment may have some conflicts with the adopted Precise Plan for El Camino Real. This plan calls for pockets of High Density Residential along El Camino, whereas this project is Medium-High Density Residential. The Specific Plan allows for minor deviations from and modification to this general land use pattern, therefore, this impact is less than significant.

VII NOISE (a) The project may introduce short-term and temporary additional sources of noise to the project area during construction. Through the City's implementation of the Citywide Design Guidelines and Municipal Code noise regulations, this impact will be lessened to a less than significant level during construction.

VII NOISE (c) The project will introduce additional sources of noise to the project area both during construction and as an operational aspect of the three additional housing units. The new use of the property is anticipated to be only slightly more intensive than the current extended stay hotel. Through the City's implementation of the Citywide Design Guidelines and Municipal Code noise regulations, this impact will be lessened to a less than significant level both during construction and post-construction operation.

VII NOISE (c) The project may introduce short-term and temporary additional sources of noise to the project area during construction. Through the City's implementation of the Citywide Design Guidelines and Municipal Code noise regulations, this impact will be lessened to a less than significant level during construction.

VII POPULATION AND HOUSING (a) The project will add 58 new residential ownership units to the project site. The project's impact will be a small beneficial impact to the City's Jobs/Housing balance. As a result, this positive aspect of the project is a less than significant impact.

IX PUBLIC SERVICES (a) The project will generate a very slight increase in the use of existing park facilities, but this impact is less than significant because the project will comply with the City's Park Dedication Fee requirement, which includes a fee of \$4,851.50 per unit. The project will generate \$281,387 for the Citywide acquisition and improvement of park facilities to offset this potential increased use.

XI GEOLOGY AND SOILS (a)(ii) The project site is not located in an area with any active faults, but may experience strong seismic ground shaking in the event of an earthquake. Through the City's implementation of the Uniform Building Code requirements for area's with potential for seismic activity this aspect of the project will be reduced to a less than significant level.

XI GEOLOGY AND SOILS (a)(iii) See Note for XI(ii).

XII TRANSPORTATION AND TRAFFIC (a) The Traffic Division of the Public Works Department has determined that the project does not warrant the preparation of a Traffic Study and that the proposed project will not have a significant impact on transportation or traffic because the project will only generate five additional peak hour trips.

XV RECREATION (a) The project will generate a very slight increase in the use of existing park facilities, but this impact is less than significant because the project will comply with the City's Park Dedication Fee requirement, which includes a fee of \$6,738.19 per each additional unit. The project will generate \$363,862.26 for the Citywide acquisition and improvement of park facilities to offset this potential increased use.

XV RECREATION (b) See Note for XV(a).
